

# WHS Y1 Seasonal Change (Part 1) Autumn/Winter Knowledge Organiser

## KEY WORDS

Learn these words and their definitions.

Key Word	Definition
Season	The <b>seasons</b> are four different times during the year with different types of weather.
Autumn	Autumn is the season when warm summer temperatures gradually decrease to the cold of winter
Winter	Winter is the coldest season of the year.
Weather	Weather is the way the air and the atmosphere feels

## UNIT Objectives

Observe changes across the four seasons.

Observe and describe weather associated with the seasons and how day length varies.

## Prior Learning

Children know about similarities and differences in relation to places, objects, materials and living things.  
Talk about the features of their own immediate environment and how environments might vary from one another.  
Make observations of animals and plants and explain why some things occur and talk about changes.

## Enquiry Questions

We will be answering these questions as we go.

What seasonal changes occur in Autumn?

How does the length of a day change from Autumn to Winter?

What clothing would be suitable for Autumn and Winter and why?
